SPR 2017- Toronto - Internet instructions

Dear Colleagues,

We look forward to hosting you in Toronto at the end of the month.
To make your visit enjoyable please see below the instructions for Wi-Fi access for the conference venue.
All delegates will need to connect to the university's network prior to being on campus.

The instructions for connecting a device to the U of T network are found here: http://help.ic.utoronto.ca/category/20/wireless-access.html. Please make sure you look at this ahead of time, as you need an internet connection to follow the instructions (and if you are on campus you will not be able to connect if internet is not enabled).

For access to internet please use the following:
        username: SPR2017
        password: research

Safe travels and see you soon.
Local Organizing Committee
