Society for Psychotherapy Research
UK & European Chapters
4th joint conference
20 – 22 September 2017
Examination Schools, Oxford

**“Psychotherapy practice and research:
Finding the common ground”**

Dear Colleagues,

It is with great pleasure that we welcome you to the 4th joint UK & European Chapters conference of the Society for Psychotherapy Research. Building on previous successful joint Chapter conferences, we are delighted to host this conference in the historic University City of Oxford, UK. With over 240 presentations from across four continents this conference continues in the SPR tradition of diversity and international dialogue.

As always, the conference will get underway with pre-conference workshops on Wednesday afternoon, followed by the official Opening Ceremony on Wednesday at 5:30pm. The theme of the conference, 'Psychotherapy Practice & Research: Finding the Common Ground', will be illuminated throughout the conference from numerous angles. This will begin with the keynote address by Bruce Wampold on Wednesday at 6.00pm entitled: 'Research on Psychotherapy Practice: Improving the Quality of Services'. Thursday and Friday will be bookended by two plenaries: 'Finding the Common Ground - What Are Our Current Concerns?' on Thursday morning, and 'Finding the Common Ground - Where Do We Go from Here?' on Friday afternoon. We hope these plenaries will allow us to keep the theme of dialogue between research and practice alive through the whole conference.

Due to the impressive number of submissions, we will have 10 parallel session tracks allowing a wide variety of sessions focusing on a diversity of therapeutic modalities, client groups, and research methods. There are four presentation formats including 46 panel sessions, 7 structured discussions, 10 brief paper sessions, and a poster session on Thursday evening. The program also features meetings on Thursday, after lunch, of various SPR 'Special Interest Groups' as well as the SPR UK and European Chapter meetings. Presenters should note that all rooms will be equipped with Windows-based laptops connected to projectors and speakers. Please bring your presentation on a USB flash drive and make sure to transfer the presentation to the laptop in good time before your presentation. Posters should be mounted on the poster boards in the North Writing School upon arrival to the conference (pins are available at the reception).

As is usual at SPR conferences time is dedicated to the important task of socialising and digesting the days' events with colleagues. Please join us for a drinks reception and food following the Opening Ceremony on Wednesday and for drinks at the Poster session on Thursday evening. An SPR 'Oxford pub crawl' will follow the Poster session: all are welcome to visit some of Oxford's traditional and famous drinking places. The conference banquet dinner will take place on Friday evening - this promises to be an impressive event – not least for the unusual spectacle of seeing psychotherapy researchers in formal dress!

A conference such as this is dependent on the dedication and hard work of many people, all of whom deserve thanks. We extend our gratitude to our helpful local hosts at the Examination Schools and Balliol College. We also greatly appreciate the time and energy dedicated by all those who were involved in the Local Organising and Programme Committees.

Finally, we thank you, our conference delegates and presenters, for your contribution to making this a successful conference and for travelling to be with us from both near and far away. It is in the exchange of your experience and knowledge on which we rely to make this a truly rewarding and inspiring event.

We wish you a productive and enjoyable conference.
